

Turtledove

Songs in Shades of Green

Turtledove features Ray and Helen Hume on guitar and violin. As well as familiar favourites, we perform our own songs, many of which have an environmental theme.

We also play a wide variety of instrumental music – folk tunes, standards and renaissance lute music, to name but a few.

Professional music teachers, Helen has a graduate diploma in performance, while Ray is a self-taught classical guitarist and songwriter.

We promise an evening which is both entertaining and inspirational.
